1. Write down the differences among DP, markov chain and monte carlo method.

2. What do you mean by hidden markov chain? Draw the transition matrix with the probability if emission of 3 days is sad, happy and sad.

3. Prove that

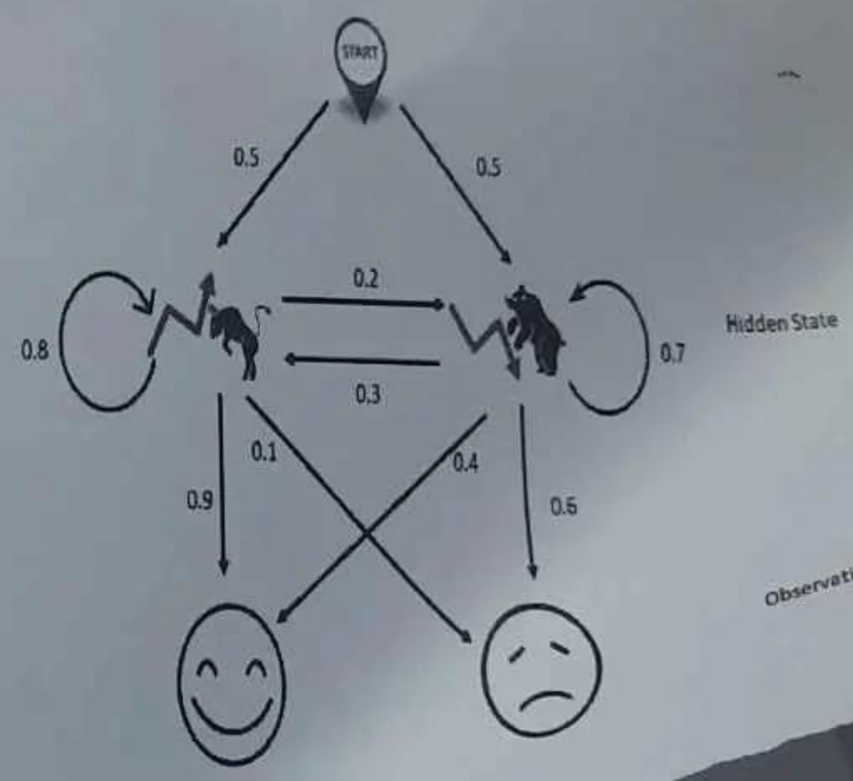

i) If a number is divisible by 3 then sum of its digits is also divisible by 3.

ii) There exists at least one prime number between n and n!

4. Define p - values. Write down the differences between divergent and convergent. Is harmonic series divergent or convergent? Explain.

5. Write down the C programe for B2 Sequence ~~and write short notes on gray code~~.

6. Write short note on gray code and de bruijn sequence.

$x^2 + 9x = 9x^2 - 9x$ ∈

$x(x+9) = 9x(x-2)$ (P) b
