UNIVERSITY OF BARISHAL

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

3rd Year 2nd Semester Final Examination-2022

Course Title: Peripherals and Interfacing

Course Code: CSE-3207

Time: 3 hours **Marks:** 60

Answer any five Questions from the followings.

1. a) Define computer peripherals. Make a brief list of most well known Input and Output peripherals [3]
   b) What do you know about keyboard? Briefly explain the basic working principles of keyboard? [6]
   c) Write short notes on the Hall effect keyboard. [3]

2. a) How can we calculate the measurements size of computer display? [3]
   b) Why LCD is called liquid crystal? Explain how CRT monitor display an image. [6]
   c) Write down the benefits and the limitations of optical mice over mechanical mice. [3]

3. a) Write down prominent features including advantages, disadvantages and real time applications of OMR, MICR and OCR [5]
   b) 8255 operates in three operational modes: Mode 0, Mode 1, Mode 2 .Explain them with right control word. [4]
   c) Discuss the role of input /output derivers for UNIX / LINUX operating system. [3]

4. a) Mention the basic role of DMA. Make a brief description of DMA transfer modes. [5]
   b) What do you mean by cycle stealing in DMA? [2]
   c) Draw the block diagram of 8255 architecture. Write down the port functions of 8255. [5]

5. a) Compare Memory-mapped I/O with peripheral I/O [3]
   b) What is the main purpose of Scanner? Write down the basic steps of Scanning process elaborately. [5]
   c) How does computer mouse work? [4]

6. a) Why UPC-A, UPC-E, UPC Supplemental are needed? [3]
   b) What is Barcode Reader? Define and identify the following barcode structure. [5]

   c) Define check digit. Using the following code determines the check digit. [4]
   "93000283936"

7. a) Define printer. What are the basic technologies of Printer? [3]
   b) i. What are the color schemes in printing? [3]
   ii. How does plotter enhance printing?
   c) Briefly explain the inkjet printer printing process. [3]
   d) Differentiate between Dot matrix printing and Laser printing. [3]

8. a) Write short notes on main component of Touch Screen. [5]
   b) What is MIDI? What are the benefits of MIDI with some applications? [4]
   c) Explain the command byte 10011100 of the command resister in the 82C55.

Good Luck!!!
