DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

UNIVERSITY OF BARISAL

In-Course EXAMINATION

Course Title: Simulation and Modeling

Course Code: CSE-3209

3rd Year 2nd Semester

Session: 2023-24 (Admission: 2021-22)

Time: 1 hour **Marks:** 10

Answer all the Questions from the followings.

1. When simulation is essential? [1]

2. Explain steps in a simulation study. [2]

3. What do you understand by Poisson process? [2]

4. A computer repair person is "beeped" each time there is a call for service. The number of beeps per hour follows Poisson distribution with mean of 2 per hour. [3]

   i) What is the probability that there will be 3 beeps in coming hours?

   ii) What is the probability that there will be 2 or more beeps in 1 hour period?

5. Where Weibull distribution can be used? Explain with an appropriate example.
